Class	90	6	-	-	Credit with grade

Aim of the course

Recognition and development of students' mental and manual and familiarising them with the basic methods of pictures i a given painting technique. Opportunities for the students to gain necessary experience and skills that will enable them to create their own work. Developing in students an awareness of individual creativity and self-realisation.

Prerequisites

Sucessful entrance to Erasmus program.

Scope

Analytic observation of nature as a basis for any workshop activities and other classes based on direct observation.

Designing and planning of paintings (painting sketch). Project realisation based on a study (study of still life, study of interior, study of landscape, portrait and self-portrait, study of a person). Getting to know expressive techniques in 2D . The basics of the shape of an artistic work . Synthetic observation of nature. Classes on a free interpretation of nature. Classes based on the use of intuition and imagination. Individual selection of a theme and aim in painting Individual and conscious project realisation

Teaching methods

Classes are run by a tutor. One to one tutorials. Assistance during the initial and final stages of a project is provided.

Learning outcomes and methods of theirs verification

Outcome description	Outcome symbols	Methods of verification	The class form
The student is able to create unique pieces of art.		<ul style="list-style-type: none">a projectan observation and evaluation of the student's practical skills	<ul style="list-style-type: none">Class
The student is able to create work based on complex structures and hierarchies of art.		<ul style="list-style-type: none">a projectan observation and evaluation of the student's practical skills	<ul style="list-style-type: none">Class
