

Multimedia Techniques - opis przedmiotu

Informacje ogólne

Nazwa przedmiotu	Multimedia Techniques
Kod przedmiotu	06.9-WM-ER-BHP-51_18
Wydział	Wydział Mechaniczny
Kierunek	WM - oferta ERASMUS
Profil	-
Rodzaj studiów	Program Erasmus
Semestr rozpoczęcia	semestr zimowy 2021/2022

Informacje o przedmiocie

Semestr	2
Liczba punktów ECTS do zdobycia	5
Typ przedmiotu	obowiązkowy
Język nauczania	angielski
Syllabus opracował	• dr hab. Eunika Baron-Polańczyk, prof. UZ

Formy zajęć

Forma zajęć	Liczba godzin w semestrze (stacjonarne)	Liczba godzin w tygodniu (stacjonarne)	Liczba godzin w semestrze (niestacjonarne)	Liczba godzin w tygodniu (niestacjonarne)	Forma zaliczenia
Wykład	15	1	-	-	Zaliczenie na ocenę
Laboratorium	15	1	-	-	Zaliczenie na ocenę

Cel przedmiotu

Familiarizing with multimedia techniques supporting the teaching-learning process.

Wymagania wstępne

Basic knowledge and abilities of ITC, including principles of IT and information system.

Zakres tematyczny

Multimedia techniques versus projecting and constructing teaching resources; media, mass media, multimedia, hypermedia, multimedia didactic materials; projecting a didactic process with the use of multimedia; multimedia strategy of teaching.

Applications used to multimedia presentations; multimedia presentation materials – basic features of presentation, text and fonts, colour and sound, animation and video, presenting. Text and graphics, film and sound in multimedia presentations. Graphics: raster, vector 2D, vector 3D.

Application of hypertext techniques in science/technology/education: Internet navigation, regular searching and selecting text, digital and multimedia data; forms of presenting data; gathering and archiving text, number, graphic and media data with the use of Internet techniques; creating multimedia presentations and web pages, as well as the correct choice of component elements; Modern tools of IT technology – they rise attractiveness and efficiency of teaching and learning processes: interactive blackboard, cyber desk, e-learning; Interactive sources of information, their use at work and in education. The media library – information and didactic centre of work for a student and a teacher.

Information workshops versus media education (programme assumptions of an education path; media education: education aims, school tasks, contents, achievements).

Use of the computer equipment and software in creating multimedia presentations; multimedia presentation materials – basic features of a presentation, recommendations concerning a text and fonts, colour and sound, animation and video; tips of carrying on a presentation.

New trends in a user-computer communication; service ergonomics, user's interface, supporting the service by users with dysfunctions (equipment and software solutions).

Media and mass communication versus the social system (media versus social and economy development; society: mass, information, network, media). Communication including contemporary multimedia techniques (means and forms of communication, models of the communication process).

Preparing and carrying on multimedia presentations and/or web pages helpful in the realization of the programme content of the studied specialization (project of a multimedia presentation helpful in the realization of programme content of the studied specialization; project of a presentation and web pages in the realization of programme content of the studied specialization).

Metody kształcenia

Problem lecture, discussion, practical exercises.

Efekty uczenia się i metody weryfikacji osiągania efektów uczenia się

Opis efektu	Symbol efektów	Metody weryfikacji efektów	Forma zajęć
