

Undergraduate thesis seminar II - course description

| General information | |
|---------------------|------------------------------------------------------------------------------------|
| Course name | Undergraduate thesis seminar II |
| Course ID | 11.3-WE-INFP-UTS02-Er |
| Faculty | Faculty of Computer Science, Electrical Engineering and Automatics |
| Field of study | Computer Science |
| Education profile | academic |
| Level of studies | First-cycle Erasmus programme |
| Beginning semester | winter term 2021/2022 |

| Course information | |
|---------------------|---------------------------------------------------------------------------------------|
| Semester | 7 |
| ECTS credits to win | 9 |
| Course type | obligatory |
| Teaching language | english |
| Author of syllabus | <ul style="list-style-type: none">prof. dr hab. inż. Andrzej Obuchowicz |

| Classes forms | | | | | |
|----------------|--------------------------------|----------------------------|--------------------------------|----------------------------|--------------------|
| The class form | Hours per semester (full-time) | Hours per week (full-time) | Hours per semester (part-time) | Hours per week (part-time) | Form of assignment |
| Project | 90 | 6 | - | - | Credit with grade |

Aim of the course

Improve the ability to present and discuss the results of a diploma thesis.

Prerequisites

Diploma seminar I

Scope

In the course of the diploma seminar II students in the seminar group present, in the form of a computer presentation, the final effects of the diploma thesis. Each presentation ends with a discussion in which the seminar group participates actively.

Teaching methods

Project: discussion

Learning outcomes and methods of theirs verification

| Outcome description | Outcome symbols | Methods of verification | The class form |
|---------------------------------------------|-----------------|--------------------------------------------------------------------------------------------------------|---------------------------------------------------------|
| Interprets the collected research material. | | <ul style="list-style-type: none">a discussiona preparation of a research paper | <ul style="list-style-type: none">Project |
| It follows the rules of engineering ethics. | | <ul style="list-style-type: none">a discussiona preparation of a research paper | <ul style="list-style-type: none">Project |

Assignment conditions

Project: the condition of pass is to obtain a positive evaluation of the presentation of the thesis results. Required minimum part of diploma thesis - 80%

Components of the final evaluation: = project: 100%

Recommended reading

Literature of the subject comes from the subject of the thesis.
