

Integrated Management Systems - opis przedmiotu

Informacje ogólne

Nazwa przedmiotu	Integrated Management Systems
Kod przedmiotu	06.9-WM-ER-ZiIP-21_18
Wydział	Wydział Mechaniczny
Kierunek	WM - oferta ERASMUS
Profil	-
Rodzaj studiów	Program Erasmus
Semestr rozpoczęcia	semestr zimowy 2023/2024

Informacje o przedmiocie

Semestr	2
Liczba punktów ECTS do zdobycia	3
Typ przedmiotu	obowiązkowy
Język nauczania	angielski
Syllabus opracował	• dr hab. inż. Sławomir Kłos, prof. UZ

Formy zajęć

Forma zajęć	Liczba godzin w semestrze (stacjonarne)	Liczba godzin w tygodniu (stacjonarne)	Liczba godzin w semestrze (niestacjonarne)	Liczba godzin w tygodniu (niestacjonarne)	Forma zaliczenia
Wykład	15	1	-	-	Egzamin
Projekt	15	1	-	-	Zaliczenie na ocenę

Cel przedmiotu

The main effect of instruction is learning of the functionality of integrated management systems, learning of a process approach to management of manufacturing companies where such systems have been implemented.

Wymagania wstępne

Production and Services Management.

Zakres tematyczny

Assessment of ERP-class systems. Material Requirements Planning MRP and Manufacturing Resource Planning MRPII. MRP and MRP II specifications. Basic functions of the integrated enterprise management system. ERP-class systems, implementation of information systems. Management of an implementation project of an integrated management system. Package selection process. The methodology of implementation of the ERP system. Management information system. Modelling business processes and workflows in an enterprise (Workflow Management). Systems of modelling of flows of business processes in an enterprise. Administration of integrated management systems. The administration of a database server, ideas for e-commerce applications, Business-to-Business (B2B) and Business-to-Customer (B2C). Review of existing solutions in the field of E-commerce.

SAP HANA software will be used for the curse.

W1 - Introduction to the SAP system, functionality of the SAP system and the GBI model

W2 - SD module, sales and distribution of products

W3 - MM module, supply and warehouse management,

W4 - PP module - planning and implementation of production processes

W5.- FI and CO modules, finance, financial and management accounting

W6 - HCM module, human capital management,

W7 - WM module, warehouse management, EAM module, maintenance management

W8 - PS module, project management in the SAP system

Thematic scope of the project classes:

P1 - introduction to the operation of the SAP system,

P2 - SD module, basic data input, offer inquiry, offer, sales order,

P3 - SD module, product distribution and sales order settlement

P4 - MM module, basic data input, purchase order fulfillment

P5 - PP module, production planning, monitoring the implementation of a production order, settlement of a production order,

P6 - PM module, project management in the SAP system

P7 - WM module, warehouse management

P8 - FI and CO modules, financial and management accounting, QM and EAM modules, management of maintenance and quality control processes.

Metody kształcenia

Conventional lecture. Project.

Efekty uczenia się i metody weryfikacji osiągania efektów uczenia się

Opis efektu	Symbol efektów	Metody weryfikacji	Forma zajęć
Student can choose the relevant modules and use the integrated IT management systems.		• kolokwium	• Projekt
The student is able to formulate and solve tasks related to production engineering and management, and to apply systematic approach taking also into account of economic, legal and social aspects.		• kolokwium	• Projekt
The student is aware of the importance and understanding of the non-technical aspects and effects of engineering activities, including its impact on the environment, and their responsibility for own decisions.		• kolokwium	• Projekt
The student has ordered and well-grounded theoretical knowledge in the field of computer-aided company management.		• egzamin - ustny, opisowy, testowy i inne	• Wykład
The student has ordered and well-grounded theoretical knowledge in the field of integrated management systems.		• egzamin - ustny, opisowy, testowy i inne	• Wykład
The student has ordered and well-grounded theoretical knowledge of decision support systems and knowledge management.		• egzamin - ustny, opisowy, testowy i inne	• Wykład
The student is able to think and act in a creative and enterprising way.		• kolokwium	• Projekt

Warunki zaliczenia

Lecture credit is awarded after passing a written exam (K_W09, K_W11, K_W14). Project credit is awarded based on the assessment of the project presenting issues concerning data structures and models of business processes of an exemplary enterprise. Credit for project classes is awarded based on the assessment of the project related to issues of data structures and business process models presented on a sample production enterprise and performed based on a selected ERP system (K_U12, K_U17, K_K02, K_K06).

Completion of the course - 50% of the project grade, 50% of the exam grade.
